SEARCH INFLUENCE

Open Sans Extra Bold	Open Sans Light	Open Sans Regular
Use for headers and body copy on social media graphics. For headers, use 1-1.2 line spacing.	Use for headers and body copy on social media graphics. For headers, use 1-1.2 line spacing.	Use for website body copy. Occasional use for *small* body copy on social media graphics is okay. For body copy, use 1-1.2 line spacing

*Generally, we want a high contrast in font weight between headers, subheaders, and body copy to help clearly communicate hierarchy of information. For that reason, avoid **Open Sans Bold**, **Open Sans Semi Bold,** and Open Sans Medium.*

#012c3a *Dark Navy to be used only with white, light blue, green, and light orange fonts*	**#014a61** *Navy to be used only with white, light blue, green, and light orange fonts*	**#3490b5** *Medium blue to be used only with white font*	**#4eb1cd** *Light blue to be used only with black, navy, and dark navy fonts*	**#91c364** *Green to be used only with black, navy, and dark navy fonts*
#b957a0 *Purple to be used only with white font*	**#df5926** *Dark Orange to be used only with white font*	**#f89e59** *Light Orange to be used only with black, navy, and dark navy fonts*	**#a7a9ac** *Light Grey to be used only with black, and dark navy fonts*	**#4c5a52** *Dark Orange to be used only with white font*

For illustrations, we want flat, more complex graphics. We do not use 3D figures, gradients, or shadows.
